

## Report on the Progress of Pandemic Influenza (H1N1) Vaccination in Latin America and the Caribbean (LAC) 3 May 2010

### 1) Advances in Vaccination Campaigns

Graphic 1. Vaccination against Pandemic Influenza (H1N1) in LAC.

Twenty seven countries in the Region have initiated the vaccination of risk groups including: Anguilla, Argentina, Bahamas, Barbados, Belize, Bermuda, Brazil, Cayman Islands, Chile, Colombia, Costa Rica, Cuba, Ecuador, El Salvador, Guatemala, Guyana, Honduras, Mexico, Montserrat, Nicaragua, Panama, Paraguay, Peru, Suriname, Trinidad and Tobago, and Uruguay; with approximately 70 million doses administered as of 3 May. More than 400 million doses have been applied globally. Country vaccination coverage is presented in the next graphic.

**Graphic 2. Vaccination Coverage by Country in LAC.**

\*No official vaccination coverage data available. †Initiated vaccination this week.

## 2) Vaccine acquisition

### 2.1) PAHO Revolving Fund (RF):

- **23 countries have purchased 20,251,020 doses of vaccine through the RF, 16,916,810 without adjuvant (Sanofi-Pasteur and Novartis) and 3,334,210 with adjuvant (Novartis). Other 300,050 doses are still pending to be delivered to Peru.**
- **Four countries have not confirmed yet their vaccine requests to the RF: Jamaica, St. Kitts & Nevis, St Vincent and the Grenadines and Venezuela.**
- **Dominica and Dominican Republic have stated their intention of not buying vaccine through the RF. Nevertheless, vaccine has been offered to them through a donation from Spain.**

### 2.2) Direct and Mixed Vaccine Purchase:

Four countries in the Region, Argentina, Brazil, Mexico and Suriname have acquired approximately 140 million vaccine doses through direct purchase from laboratories. Brazil has also purchased almost 10 million doses from the Revolving Fund and Suriname has received 50 thousand doses donated through the World Health Organization (WHO).

### 2.3) Vaccine Donation Through WHO:

Ten countries in the Region are eligible to receive a donation of 6,974,000 doses of pandemic vaccine through WHO. As of 3 May, countries have received a total of 3,934,000 doses of vaccine (Table 1). There are still 3,040,000 pending doses to be delivered.

**Table 1.**  
Pandemic Influenza (H1N1) Vaccine Donation Status Through WHO

Country	Arrival dates for the 1st shipment	Doses delivered to countries	Arrival dates for the 2nd shipment	Doses delivered to countries	Doses pending for shipment	Doses donated through WHO 1st stage	Producer laboratory	Adjuvant	Extended Donation WHO	Arrival date	Doses received - Extended Donation	Total doses received by countries	Total doses donated through WHO
Bolivia	2 April	900,000	-	-	-	900,000	GSK	Yes	-	-	-	900,000	900,000
Cuba	17 March	1,124,000	-	-	-	1,124,000	GSK	Yes	-	-	-	1,124,000	1,124,000
El Salvador	21 March	135,000	30 April	540,000	-	675,000	GSK	Yes	1,600,000	28 April	1,600,000	2,275,000	2,275,000
Guatemala	28 March	260,000	6 May	-	1,040,000	1,300,000	Sanofi Pasteur	No	-	-	-	260,000	1,300,000
Guyana	29 March	75,000	-	-	-	75,000	Sanofi Pasteur	No	100,000	6 May	-	75,000	175,000
Haiti	-	-	-	-	1,000,000	1,000,000	Sanofi Pasteur	No	-	-	-	-	1,000,000
Honduras	18 March	140,000	Pending	-	560,000	700,000	Novartis	Yes	950,000	Pending	-	140,000	1,650,000
Nicaragua	3 March	110,000	Pending	-	440,000	550,000	Novartis	Yes	200,000	Pending	-	110,000	750,000
Paraguay	1 May	600,000	-	-	-	600,000	Sanofi Pasteur	No	-	-	-	600,000	600,000
Suriname	15 April	50,000	-	-	-	50,000	GSK	Yes	50,000	Cancelled by the country	-	50,000	100,000
<b>Total doses</b>		<b>3,394,000</b>		<b>540,000</b>	<b>3,040,000</b>	<b>6,974,000</b>			<b>2,900,000</b>		<b>1,600,000</b>	<b>5,534,000</b>	<b>9,874,000</b>

WHO has also increased the donation offer to 5 of the previously selected countries: El Salvador, Guyana, Honduras, Nicaragua and Suriname, to cover remaining vaccine gaps totaling 2,900,000 doses. Of these, 1,600,000 doses have been delivered to El Salvador by 28 April and 100,000 have been confirmed for Guyana by 6 May.

Haiti's final decision regarding whether to accept the WHO donated vaccine remains pending.

### **2.3) Vaccine Donation from Spain:**

The Spanish Government has offered a donation of 4,113,870 vaccine doses for 8 countries in the Region (Chile, Cuba, Dominica, Dominican Republic, Nicaragua, Panamá, Paraguay and Venezuela) with remaining vaccine gaps. Chile and Dominica have decided not to accept the donation. Administrative procedures are in process to ship this vaccine to the selected countries.

### **3) Events Supposedly Attributable to Vaccination or Immunization (ESAVI)**

With regards to ESAVI surveillance, there have been 1,224 reported ESAVI of which 120 are severe events: Argentina (2), Bahamas (2), Brazil (86), Colombia (2), Costa Rica (1), Ecuador (1), Mexico (15), Nicaragua (3), Panama (1), Peru (5) and Suriname (2). Forty five of these reported ESAVI have been classified<sup>i</sup> as events related to Pandemic Influenza (H1N1) vaccine, all of which were reported in Brazil. Eighteen of these cases are anaphylaxis (0.4 events per million doses). The expected anaphylaxis rate is between 1-10 cases per million doses. Also, 23 probable cases of Guillain-Barré Syndrome (GBS) have been notified (16 from Mexico and 17 from Brazil), 10 of which have been discarded because didn't fulfill GBS criteria, 2 have been classified as non-related events and the rest are under investigation. Six programmatic errors have been notified from one country. All of them were produced because only adjuvant was administered during the vaccination; none presented adverse reactions. Six other probable programmatic errors are being investigated in other two countries.

4) The technical documents and advances in vaccination made by countries are continuously updated on the PAHO Immunization website:

[http://new.paho.org/hq/index.php?option=com\\_content&task=view&id=2461&Itemid=569&lang=en](http://new.paho.org/hq/index.php?option=com_content&task=view&id=2461&Itemid=569&lang=en)

This bulletin is updated with the information stated in the country profiles sent weekly the Member States.

---

<sup>i</sup> Case classification presented is preliminary, since Specialized National Committees are still working on case classification in basis of a complete case review.
